FOR IMMEDIATE RELEASE

Unity Expands operations to Edmonton Alberta

May 13, 2009

Edmonton, Alberta – Unity Telecom announced today that they are expanding their Canadian presence with the opening of a new office in Edmonton Alberta. "With the growth we have experienced in Western Canada, and to further enhance our capabilities for our National customers, we have established an office in Edmonton Alberta" stated Dave Sherry, President Unity Telecom.

The Profit Hot 50 listed Unity Telecom as one of Canada's emerging growth companies in 2008. Unity has continued to experience growth throughout 2008, and into 2009. Dave Sherry commented, "The opening of Edmonton is in keeping with our commitment to re-invest in our business and expand our presence in Western Canada. As long as companies are looking to find ways to save money, and ways to improve operations and customer interactions, we will continue to grow!"

Unity continually seeks out products and solutions to aid their customers in providing enhanced operations, and better more efficient communications solutions. Most recently, they became a Motorola reseller for their wireless solutions to enhance their wireless offers to the market.

About Unity Telecom

Unity Telecom is a full service Communications Company, providing consulting, design, implementation and support for best of breed IP based business communication solutions. Unity has sales and technical certifications on all the products we sell and support, including Avaya, AVST, Captaris, Cisco, Panasonic, and Motorola. With offices across Canada, in the USA, and strong alliance partnerships with certified resellers, we are able to serve businesses of all sizes.

Sales and sales engineering teams configure creative, ROI-based solutions and relate these solutions directly to a customer's specific needs. Unity has direct service coverage in Toronto, Montreal, Vancouver, Edmonton, Calgary, Winnipeg, and Phoenix AZ, and an extensive network of Canadian and US partners enables full deployment and service coverage in all other cities as well as remote locations.
